PROFILE SUMMARY

Final-year Computer Science and Engineering student with a strong foundation in programming and a growing specialization in frontend web development. Passionate about crafting interactive, user-focused web interfaces and exploring creative projects that bring technology and design together. Skilled in transforming ideas into responsive and visually appealing digital experiences. Beyond academics, a keen interest in photography helps in viewing things from fresh perspectives and capturing unique moments — a pursuit that sharpens creativity, focus, and problem-solving skills, enhancing growth in both technology and life.

EDUCATION

C.V. Raman Global University, Bhubaneswar	2022-2026
B.Tech in Computer Science & Engineering	
CGPA - 9.30 (Till 6th Sem)	
Pragya Niketan Public School, Bihar	2019-2021
XII	
Percentage - 82.4 %	
D.A.V Public School, Bihar	2018-2019
X	
Percentage - 88.8 %	

TECHNICAL SKILLS

Programming Languages: Java, Python, Machine Learning

Core Subjects: DBMS(Database Management System), Operating System

Frontend: HTML, CSS, JavaScript, React

Backend: Node.js

Database: SQL

Version Control: GitHub

PROJECTS

PROFOLIO:

Technologies: HTML, CSS, JavaScript

- Created “ProFolio” – a responsive personal portfolio website.
- Showcased skills, projects, and contact information in a professional and engaging format.
- Designed an intuitive and minimalist UI with smooth navigation and interactive elements.
- Implemented dynamic features such as project filtering, hover effects, and form validation.
- Ensured responsiveness and cross-browser compatibility for optimal performance on all devices.
- Demonstrated frontend development expertise through clean code, user-centric design, and functionality.

ICY-TALES:

Technologies: React, Node.js

- Developed a fully functional e-commerce website using React.js and React Router for smooth navigation across pages.
- Designed and implemented modular pages including Home, Shop, Product Details, Cart, Checkout, Blog, About, FAQ, and Contact.
- Integrated dynamic routing for product details and checkout flow using BrowserRouter, Routes, and Route.
- Built reusable components such as Navbar, Footer, and Shopping Cart to ensure consistent UI/UX.
- Implemented NotFound (404) page for handling undefined routes gracefully.
- Used component-based architecture to improve scalability, reusability, and maintainability of the codebase.
- Focused on responsive design to ensure compatibility across different devices and screen sizes.
- Followed clean code practices and maintained organized folder structure for better readability and performance.

ACHIEVEMENTS

LeetCode:

- Solved 100+ problems
- Maintained a 1 month streak of daily problem-solving
